THE SAFE WAY OR NO WAY AT USA

Here at USA Mechanical & Energy Services, safety is a priority for our team. All our employees must be OSHA 10 certified, Ladder Safety Training, Scissor Lift Compliance, and Fork Truck trained.

Our team has certifications with both Avetta and ApprUV™. Safety is important to us, so training our team members is a priority. ApprUV™ & Avetta specializes in online contractor and supplier prequalification for safety and health, OSHA compliance, and regulatory standards. Members of ApprUV™ & Avetta benefit from being recognized for their standard of excellence and commitment to safety and health.

"It has been a pleasure to work with USA Mechanical & Energy Services. Over the past few years, we have developed a fantastic relationship that I hope to extend well into the future. They have been involved with some very in-depth projects for us at SPIROL, and we have been very pleased with the work provided. Not only do they complete quality work, but their staff is relatable and fast acting"

David Marceau, Facilities Manager,
SPIROL

Jenesys Edge Lynxpring Controller

OUR PRODUCTS AND SERVICES

BUILDING AUTOMATION SYSTEMS

USA Mechanical and Energy Services, LLC offers a full suite of services for Building Automation Systems (BAS) and Controls by Lynxpring, a Tridium Niagara OEM.

BAS Systems are the brains of today's smart buildings. Modern intelligent technology allows for the control of HVAC and lighting equipment in the most energy-efficient manner possible. Smart buildings provide building owners and facility managers the ability to monitor and control their buildings, maintain comfort, increase the life of HVAC equipment, and reduce energy consumption.
